8 State Plan Recommendations

ONE

Use data and evaluation to inform program planning & continuous improvement

a work in
progress

How to use Evidence-based Strategies

1. Replicate scientifically evaluated programs with fidelity and with appropriate audience.
2. Incorporate the characteristics of scientifically evaluated programs.
3. Develop programs to address known antecedents (risk and protective factors) related to teen pregnancy, and using logic models to show how interventions affect selected antecedents, which in turn create desired outcomes.

10 Characteristics of Effective Sex & HIV Education Programs

The most effective education programs share 10 common characteristics.

These programs:

- 1 Focus on reducing one or more sexual behaviors that lead to unintended pregnancy or HIV/STD infection.
- 2 Are based on theoretical approaches that have been demonstrated to influence other health-related behaviors & target specific sexual antecedents.
- 3 Deliver & consistently reinforce a clear message about abstaining from sexual activity and /or using condoms or other forms on contraception.
- 4 Provide basic, accurate information about the risks of teen sexual activity & about ways to avoid intercourse or use methods of protection against pregnancy & STDs.
- 5 Include activities that address social pressures that influence sexual behavior.
- 6 Provide examples of & practice with communication, negotiation & refusal skills.
- 7 Employ teaching methods designed to involve participants & have them personalize the information.
- 8 Incorporate behavioral goals, teaching methods, & materials that are appropriate to the age, sexual experience & culture of the students.
- 9 Last a sufficient length of time (i.e., more than a few hours).
- 10 Select teachers or peer leaders who believe in the program & provide adequate training.

State Plan Recommendations

TWO

Ground the program in a youth development approach

“Prevention is an inadequate goal.
‘Problem-free’ is not fully prepared.”

Karen Pittman

The Forum for Youth Investment

State Plan Recommendations

THREE

Eliminate health disparities

Minnesota 2000 Teen Pregnancy Rates

Rates per 1,000 15-19 Year Olds

Race/Ethnicity	Pregnancy Rate
White	30
Asian	71
Hispanic	123
Native American	131
African American	162

State Plan Recommendations

FOUR

Support and coordinate resources and services for teen parented families

a work in progress

State Plan Recommendations

FIVE

Assure community partnerships

a work in
progress

State Plan Recommendations

SIX

Involve parents and other caring adults

“Adolescents often do a very good job of conveying that their parents are irrelevant. Their parents too often make the mistake of believing them.”

Michael Resnick

*National Teen Pregnancy Prevention Research Center,
University of Minnesota*

progress

State Plan Recommendations

SEVEN

Include males in pregnancy preventing efforts and teen parenting programs

a work in
progress

State Plan Recommendations

EIGHT

Support comprehensive sexuality education

“Sexuality education provides a broad approach, addressing all aspects of being a sexual, gendered person including biological, psychological and social perspectives. The main objectives of such comprehensive sexuality education are to help people feel good about themselves and their bodies, remain healthy & build positive, equitable loving relationships - to be ‘sexually healthy’.”

Evonne Hedgepeth & Joan Helmich

Principles and Methods for Effective Education: Teaching About Sexuality and HIV

---	---	---

Community Awareness
Strengthen best practices among populations with the highest rates of teen pregnancy during Teen Pregnancy Awareness Month (May) and Let's Talk Month (October)

- MOAPPP Staff
- SPRCDPH Staff
- Key Advisors
- Community agencies

Coalition
Coordinate advocacy and service organizations working to prevent teen pregnancies

- MOAPPP Staff
- SPRCDPH Staff
- Key Advisors
- Community agencies

RC Assessment
Analysis of population-based efforts of teen pregnancy prevention

- Laurie L. Meschke, Ph.D.
- MOAPPP Staff
- SPRCDPH Staff

Youth Health Services
Promote access to and use of school-based and community clinic health services among youth.

- MOAPPP Staff
- Family Tree Clinic Staff
- Health Start Clinic Staff

School Sex Ed
Develop strategies to encourage the five school districts in Ramsey County to implement comprehensive sexuality education for students based on best practices

- MOAPPP Staff
- SPRCDPH Staff
- CFL Staff
- Health Teachers
- Community Health Educators

Teen Advocates
Develop a team of adolescents to work with policy makers about teen pregnancy prevention issues

- MOAPPP Staff
- Key Advisors
- Leadership St. Paul Volunteers

Reasons to Train Youth Advocates

Youth Benefits

- Improved self-discipline and schedule management
- Opportunity to create real community change
- Increased knowledge and skills
- Enhanced self-concept
- Increased connectedness and stature in community
- Feeling of accomplishment, contribution
- Greater appreciation of the multiple roles of adults

Adapted from Advocates for Youth (2001); Kaiser Foundation (2002) & Harvard Family Research Project (2002)

Reasons to Train Youth Advocates

Adult Benefits

- Contributions to organizational development and capacity building
- Positive view of youth
- Enhanced commitment and energy
- Increased confidence working with youth
- Better understanding of youth needs
- Increased community connectedness
- Fresh ideas

Adapted from Advocates for Youth (2001); Kaiser Foundation (2002)

SPRCTPP Teen Advocates

Goal:

Develop a team of adolescent males and females to work with policy makers about teen pregnancy prevention issues.

SPRCTPP Teen Advocates

Objective:

Recruit and train 20 youth (ages 14-18 years) advocates in the area of health disparities and teen pregnancy prevention.

The slide features a light beige background with a blue border. In each of the four corners, there are decorative elements consisting of multiple blue arrows of varying sizes and orientations, pointing towards the center of the slide. The top-left and top-right corners have arrows pointing downwards and inwards. The bottom-left and bottom-right corners have arrows pointing upwards and inwards.

Program Timeline

November 2002 - June 2003

(8 months)

Program Coordination

- **Program Staff:**

MOAPPP staff

Key Advisors

- **Adult Volunteers:**

Leadership Saint Paul

Recruiting Teen Advocates

- Partnering Organizations / Key Advisors
- Applications
- Selection
- Stipend

Recruitment Highlights

- 31 Applications received
- 20 Teen advocates representing each community
- 12 Females:
 - 2 American Indian, 2 Latina, 3 African American, 4 Asian and 1 Caucasian
- 8 Males (including 1 teen father):
 - 3 Latino, 3 African American, 2 Asian

Training Topics

- Leadership
- Advocacy
- Teen Pregnancy Prevention

Training Topics

- Leadership Skills:

(team building, contacting & meeting people)

- * Methods: ice-breakers, speakers and role-play scenarios

Training Topics

- **Advocacy Skills:**

(Identifying and communicating with policy makers)

* Methods: speakers and role-play scenarios

- **Advocacy Skills:**

(Increasing community awareness)

* Methods: speakers, letters to the editor, and media campaign

Training Topics

- Teen Pregnancy Prevention:

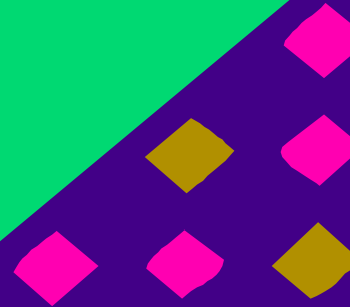

- comprehensive sexuality education
- minor's consent
- parent and adult involvement
- community collaboration and support

* Methods: speakers, Web resources, and written materials

Teen Advocate Trainings

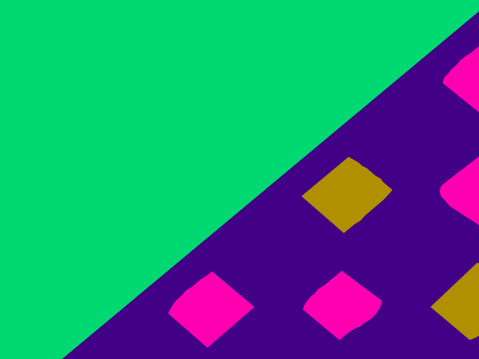

- Special Events:
 - Capitol Lab
 - Media Campaign
 - Computer Lab Visit
 - End-of-year Event

Special Events:

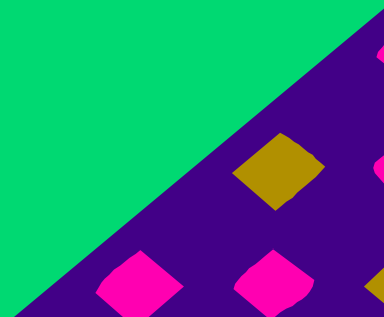

- Capitol Lab

- Sex Ed for Life Coalition Sponsor
 - December 9, 2002
 - 50+ metro youth attended
 - Presentation on government and advocacy
 - Capitol tour
- 

Special Events:

- Comprehensive Sex Ed. Media Campaign
 - May 2003
 - Communications
 - Marketing and Design
 - Public Service Announcement

Special Events:

- End-of-Year Event
 - Invite parents, caregivers, and policy makers
 - Youth led showcase of advocacy activities
- 

The slide features a light beige background with a decorative border of blue arrows. The arrows are arranged in curved patterns in the four corners, pointing towards the center. The top-left and top-right corners have arrows pointing downwards and inwards. The bottom-left and bottom-right corners have arrows pointing upwards and inwards.

Maintaining Teen Advocates

- Teen feedback
- Frequent meeting reminders
- Payment of stipend
- Adult Involvement
