

How to evaluate your Let's Talk Month display:

What materials were disseminated (specifically name)?

Number of materials at beginning of display (count handouts)

Number of materials at end of display (count handouts)

Total materials distributed (subtract end from beginning)

Provide a sign-up sheet for more information available to display guests.

Sample headers for sign-up sheet:

I would like more information how to talk about sexuality.

I would like more information about the importance of parent-child communication.

(Include space for name, address, phone, and email.)

* For more in depth evaluation of your Let's Talk Month display, contact the individuals on the sign-up sheet one month later and survey about what materials they used from your display and their satisfaction with the materials.
