The Minnesota Sexuality Education Resource Review Panel **Recommends the use of this brochure for the following reasons and with the following reservations:**

This brochure provides a general overview of Hepatitis B and C (with some information about Hepatitis A). It includes a brief description of what they are, how they are transmitted, and how to protect oneself from being exposed. The panel found the brochure technically accurate; non-biased in terms of gender, race, ethnicity or culture; and user friendly. They felt it contained good basic information that would be helpful as a starting point for further education.
