**The Minnesota Sexuality Education Resource Review Panel **Recommends** the use of this game for the following reasons and with the following reservations:**

This game is designed to create discussion of issues involved in AIDS prevention. The panel felt that overall it is a useful tool to stimulate conversation. The inclusion of blank cards provides a good way to tailor the game to individual groups. The panel expressed some concerns about the information presented. They stated that the term "safe sex" needs to be replaced with the term "safer sex" and that some of the terms need clarification and standardization (e.g., "vaginal secretions" changed to "fluids"). References to nonoxynol-9 are inaccurate and should be removed from the game. The panel felt that this game needs to address oral sex, tattoos and piercing.
