The Minnesota Sexuality Education Resource Review Panel **Recommends the use of this video for the following reasons and with the following reservations:**

This video presents a first person look at twenty diverse youth who are HIV positive or have AIDS. The panel felt that the personal stories and quotations convey a good message. Though the panel recommends this video as a useful resource, they expressed some concerns. The panel felt that the text and graphics in this video move too quickly, making the messages difficult to read and understand. The statistics need to be updated and clarification of mother to child transmission is needed. In addition, the video is not closed captioned.
