**The Minnesota Sexuality Education Resource Review Panel **Recommends** the use of this manual for the following reasons and with the following reservations:**

This manual is a collection of factual information and activities. The panel liked the interactive nature of the activities and felt that they could be adapted to different audiences. The panel did not recommend it as comprehensive curriculum, but rather as collection of activities to supplement other curricula.

The panel expressed many concerns about the manual. It is not user-friendly for a teacher or group leader. It requires a lot of preparation, adaptation and knowledge of sexuality education. It assumes that the audience or students are high functioning. Although the information is very factual, it does not promote a sexually positive message. Furthermore, the information assumes cultural homogeneity and does not discuss issues of class, race, sexual orientation or ability.
