The Minnesota Sexuality Education Resource Review Panel **Recommends the use of this brochure for the following reasons and with the following reservations:**

This brochure addresses the relationship between HIV, alcohol and other drugs. It is not a comprehensive review of the issues but presents information in a clear and concise manner.

The panel found the information to be technically accurate and up-to-date, eye-catching, appealing to a diverse audience (middle school and older), and educationally sound. Panel members felt that the brochure could stand alone as a resource to raise awareness of the issues or could be used as a teaching tool in conjunction with other curricular materials.
