The Minnesota Sexuality Education Resource Review Panel **Does Not Recommend the use of this video for the following reasons and with the following reservations:**

“Nightmare on AIDS Street” is a video written and acted by teens as part of the series, SenariosUSA. “Nightmare on AIDS Street” takes a look at one girl’s experience as she awaits the results of an HIV test.

The panel found the video to be confusing, fear-based and too abstract for a teen audience. It is unclear what messages it is trying to communicate. It touches on issues related to HIV testing, decision making, pressure at parties, etc. but is not clear about what it hopes the viewers will take away from the story. The video would require a very focused discussion led by a strong leader. ScenariosUSA is in the process of developing a study guide to accompany the video. The panel stated that such a tool might offer the guidance necessary to make the video a useful resource. Until that time, however, the panel does not recommend the use of the video.
