The Minnesota Sexuality Education Resource Review Panel **Recommends the use of this curriculum for the following reasons and with the following reservations:**

This curriculum offers an inclusive, comprehensive format for discussing sexuality in all aspects of our lives. It includes sessions of activities and questions to demystify and talk about sexuality; gender; sexual orientation and identity; relationships; sex and body awareness; STDs; parenthood; abuse; and unintended pregnancy in a positive, non-judgmental context. It outlines abstinence until maturity, and lifelong monogamy as the healthiest relationship.

Some of the technical information such as state-specific policies and laws pertaining to abortion and paternity need to be supplemented by speakers, but overall this is a very accurate and comprehensive curriculum. Because it is so comprehensive, it requires a lot of preparation. Teachers must go through training, as well as spend a lot of time preparing and understanding the lessons. Furthermore, the curriculum requires parental support and involvement.

This is a highly recommended curriculum if a teacher can meet the time commitments to make this an effective, positive experience.
